

*csHdeluxe*  
we realize your ideas in concrete.

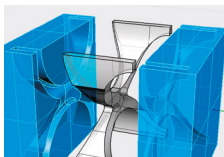

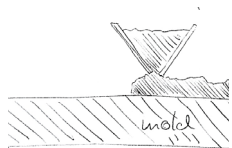

We realise your ideas in concrete

**CSHdeluxe is a concrete manufactory offering a wide range of manufactory and high-tech services to realize ideas in concrete. It is accessible to anybody who looks for concrete know-how and production facilities.**

[www.cshdeluxe.de](http://www.cshdeluxe.de)

idea

Our consultancy starts with your idea.

We get to know your issue and you get to know our staff, our workshop and our facilities.

plan

Together we begin to plan ways for realizing the idea.

You will receive lists on time-span, costs, material and effort needed.

prototyping

After planning, we start producing prototypes.

We will have results to discuss on variations, proportion and material

optimization

Mixture, molds and scales are being optimized.

A final prototype will be realized.

series

We support the planning of production plants and we also offer further production of small to medium series within our facilities.

finish

You will have a full package consisting of mixture, molds, tested values, opportunities for serial production, as well as partners to refer to in the ongoing process.

## Manufactory Skills

Due to a great variety of projects realised by CSHdeluxe the manufactory can realise visions with many tools:

- production of casting molds according to adapted or developed mixtures.
- development of production processes
- consultancy before, during and after your

## Technical Skills

Being supported by the engineering company G.tecz, CSH is able to analyse your issue in order to realise tricky designs in concrete.
